

# **Powell-Clarks Fork Conservation District**

*1017 Highway 14A, Powell, Wyoming 82435  
Phone 307-754-9301 FAX 307-754-2761 Email Ann.Trosper@wy.nacdnet.net*

## **Board of Supervisors**

Floyd Derry ~ Chairman  
Ken Borchert ~ Vice-chairman  
R. Denny Hall ~ Secretary Treasurer  
Regan Smith ~ Member  
Shane Smith ~ Member

## **District Staff**

Ann Trosper ~ District Manager  
Watershed Coordinator

## **USDA NRCS Staff**

Dicksie Michael ~ District Conservationist

**Annual Report 2008-2009  
Annual Plan 2009-2010**

## ***History***

The Powell-Clarks Fork Conservation District was organized in 1954. The District boundary changed in 1974 when supervisors were elected on the general election ballot. The present area of the District is approximately 537,000 acres. Within the District are approximately 500 operating units and about 325 cooperators. The annual growing season is 107 days with average precipitation being 12-15 inches per year.

Our conservation district is responsible for directing conservation programs that serve to conserve the soil, water, and vegetation within our district. Water quality continues as our primary focus. Conservation successes are due to the stewardship of the local landowners and concerned citizens of our district.

## ***How to Contact PCFCD***

Address: 1017 Highway 14A, Powell, Wyoming 82435

Phone: 307-754-9301 x112

Fax: 307-754-2761

Email: [Ann.Trosper@wy.nacdnet.net](mailto:Ann.Trosper@wy.nacdnet.net)

## ***Board of Supervisors***

The Powell Clarks Fork Conservation District is governed by a five member Board of Supervisors. Three supervisors are rural, one is urban, and one is designated as at-large. They are elected by the residents of Powell Clarks Fork Conservation District during the general election. They serve staggered four year terms of office. Supervisors may come from many different occupations but must reside within the boundaries of the district and must be residents of Wyoming.

Supervisors are unpaid, elected volunteers who attend monthly board meetings and are actively involved in overseeing district activities. Board meetings are held on the first Monday of each month at the USDA Service Center in Powell, Wyoming and are open to the public.

Members of our current board are:

Floyd Derry	Chairman
Ken Borchert	Vice-Chairman
R. Denny Hall	Secretary-Treasurer
Regan Smith	Member, RC & D Council Representative
Shane Smith	Member

District Staff:

Ann Trosper	District Manager, Watershed Coordinator
-------------	---

Natural Resources Conservation Service Staff

Dicksie Michael	District Conservationist
-----------------	--------------------------

The Powell Clarks Fork Conservation District and the Natural Resources Conservation Service work in tandem to implement local conservation practices.

### ***Partners***

Powell Clarks Fork Conservation District would like to thank the following organizations for their support in our conservation and resource development efforts.

Wyoming Association of Conservation Districts  
Natural Resources Conservation Service  
Wyoming Department of Agriculture  
Wyoming Ag in the Classroom  
University of Wyoming  
National Association of Conservation Districts  
Farm Service Agency  
Wyoming Game and Fish Department  
Wyoming Department of Environmental Quality  
Park County Weed and Pest  
Park County Planning and Zoning  
Bighorn Basin Resource Conservation and Development  
Wyoming Natural Resource Foundation  
Cody Conservation District  
North Big Horn Conservation District  
Crook County Conservation District  
Hot Springs Conservation District  
Meeteetse Conservation District  
Park County Master Gardeners  
Powell High School  
Wyoming Wildlife Trust Fund  
First National Bank

### ***Administration and Technical Staff***

Ann Trosper is the District Manager and Watershed Coordinator for the district. Ann has a background of project management stemming from 30+ years working for the oil and gas industry. She has also had experience in grant writing and management. Her responsibilities include water quality monitoring, public outreach, grant administration and implementation and general office duties.

Training – Powell Clarks Fork Conservation District is becoming very involved in local, state, and federal issues affecting our natural resources. Training and attendance at meetings is necessary to better serve our local community. PCFCD is very appreciative of the training opportunities that are offered through WACD, Wyoming Department of Agriculture, and the University of Wyoming.

### **Education/Public Information/Outreach**

#### ***Public information/Outreach:***

PCFCD partnered with University of Wyoming, NRCS, Park County Weed and Pest and the Park County Master Gardeners to continue the small acreage workshop program for the Powell area. A grant from University of Wyoming “Living a Few Acres” provided the funding for the project. The purpose of this workshop was to provide education and discussion on cover crops, soils testing, tree plantings, water quality issues, and irrigation rights and responsibilities. The target audience was the growing number of small acreage (less than 40 acres) property owners in Park County. The workshop was held at the U. W. Experiment Station in Powell. The Master Gardeners and Ann Trosper prepared homemade jams and jellies from fruits produced

from native and conservation plantings to demonstrate the harvest from these plantings. There were 29 participants at this workshop.

This year the district moved with the rest of the USDA Service Center to a new location. In December we had a wonderful open house. The district was able to use the time to visit with guests about current and planned conservation projects. We enjoyed visiting with 35 guests.

Sandra Frost with University of Wyoming Extension organized a "Lunch and Learn" workshop at the Powell Library to discuss water quality and septic tank issues. Ann Trosper presented general information regarding septic system maintenance and presented results of recent water quality monitoring. There were 6 participants at the lunch and learn.

Regular updates have been presented to Park County Commissioners regarding water quality efforts. In addition presentations were made to the commissioners regarding the completion of the Shoshone River Watershed Plan. One of the major work items identified in the watershed plan is invasive species. The Powell Clarks Fork Conservation District helped to facilitate the creation of the Shoshone Clarks Fork Restoration CRM to address Russian olive and tamarisk infestation in the watersheds. A separate review to Park County Commissioners was made on this summer to ask for support for this project.

TREES-TREES-TREES were the subject of our April 11, 2009 tree pruning workshop that we sponsored in conjunction with the Park County Master Gardeners. This workshop was held at the Park County Fairgrounds where we had the opportunity to learn about tree pruning and then participate in hands-on pruning of various tree and shrub species. We enjoyed great weather and learned a lot about good tree health. We had 10 participants at the tree pruning workshop.

## **Water Program**

Within Powell Clarks Fork Conservation District there are two water bodies that are currently listed as impaired due to fecal Coliform levels. Bitter Creek was listed as impaired in 2000. The Shoshone River has recently been listed as impaired for fecal Coliform an unknown distance upstream from Bighorn reservoir.

### ***Bitter Creek***

Bitter Creek (HUC 10080014) was listed on Wyoming's 2000 303 (d) impaired water body list as impaired by fecal Coliform bacteria. The source of the impairment was unknown. Possible sources included but were not limited to: agriculture and wildlife waste; and failing or inadequate household septic systems. Bitter Creek is classified as a Class 2 stream supporting agriculture, fish and wildlife, industry, human drinking water, aquatic life and full contact recreation.

***Household septic systems:*** Due to lack of funding we were unable to continue any work associated with septic remediation in 2008-2009. We are continuing to monitor water quality for E. coli in Bitter Creek. Articles regarding the grant and funding status were in both the Powell and Cody newspapers this spring. There is still a lot of interest from local residents for help with septic remediation.

***Education and awareness*** Powell Tribune, our local newspaper, continues to give wonderful support to our activities. Additionally, we continue to work with Powell High School students on water quality monitoring efforts in Bitter Creek. This year 64 students participated in an E. coli and sediment study at Bitter Creek 9 sample site. We sponsored a small acreage workshop and bus tour in October. Topics discussed were irrigation practices, weed control, cover crops, water quality, and soils testing. Several presentations have been made to Park County Commissioners to update them on the Bitter Creek project and other conservation district

efforts. In addition we continue to meet with local service organizations to keep them updated on conservation district activity. One of our goals is to keep elected officials aware of our progress. Last year we made multiple presentations to Park County Commissioners to inform them about district activities. We also sent our one page summary to the Park County representatives to inform them of our activity and to offer our assistance as they worked through legislative environmental issues.

***Water Quality Monitoring*** In 2007 and 2008 we used the WDA Watershed plan implementation grant funds to monitor sites on Bitter Creek. The purpose of this monitoring was to look at fecal coliform and E. coli rates prior to and during the septic remediation process. A subsequent grant has been obtained to monitor for fecal coliform and E. coli on the same sites during 2008 and 2009.

### ***Shoshone River***

The Shoshone River (HUC 10080014) was listed on Wyoming's 2004 303 (d) impaired water body list as impaired by fecal Coliform bacteria. The source of the impairment was unknown. Possible sources included but were not limited to: agriculture and wildlife waste; and failing or inadequate household septic systems. The Shoshone River is classified as a Class 2 stream supporting agriculture, fish and wildlife, industry, human drinking water, aquatic life and full contact recreation.

***Watershed planning:*** This year we completed the Shoshone River Watershed Plan. Powell Clarks Fork and Cody Conservation Districts worked together across district boundaries with our watershed steering committee to address water quality issues on the Shoshone River

from Buffalo Bill Reservoir through the PCFCD East boundary. Nephi Cole with NRCS is facilitated the meetings. The project began in the fall of 2006 and was completed spring 2009. We enjoyed 16 active steering committee members. The work identified by the steering committee is included in our long range plan.

**Education and awareness** The conservation district has made a strong effort to keep the local government, primarily Park County Planning and Zoning and Park County Commissioners informed and engaged in the watershed planning efforts. Linda Gillette with Park County Planning and Zoning is a participant on the Shoshone River watershed steering committee. Copies of the completed plan were sent to the local irrigation companies, Park County Commissioners, and all of the local Wyoming legislators.

**Water Quality Monitoring** In 2008 we obtained grant funds to monitor sites on the Shoshone River and Bitter Creek through June 2010. This data will be added to the baseline work completed in 2007.

**Irrigation Management Activity**

The table below details the irrigation projects for the year.

Funding Source	District	Watershed	Estimated Project Cost	Acres	Resource Concern	Project Description
EQIP	Powell	Shoshone	131174	80	Irrigation - sprinkler	pivot
EQIP	Powell	Clarks Fork	97696	120	Irrigation - Sprinkler	pivot

Funding Source	District	Watershed	Estimated Project Cost	Acres	Resource Concern	Project Description
EQIP	Powell	Shoshone	72534	65	Irrigation-gated pipe	Gated and buried pipe
EQIP	Powell	Shoshone	8450	37	Irrigation-gated pipe	gated pipe
EQIP	Powell	Shoshone	79564	233	Irrigation-gated pipe	buried pipe

### Animal Waste and Grazing Management

The table below details animal waste and grazing management activities.

Funding Source	District	Watershed	Estimated Project Cost	Acres	Resource Concern	Project Description
EQIP	Powell	Shoshone	20672	266	Grazing Lands	well, tank fencing

Work was completed on the Whit Creek solar pump and water management project.

## Invasive Species and Wildlife Programs

Local producers are working together to address invasive weed species in Park County. A CRM set up to focus on Russian olive and salt cedar has been formed. The steering committee is co-chaired by John Kendrick and Dave Campbell. They have just completed an application for a \$500,000 grant from Wyoming Wildlife Natural Resource and Trust Fund. The following table details USDA funds that have been approved for this project.

Funding Source	District	Watershed	Estimated Project Cost	Acres	Resource Concern	Project Description
AMA	Powell	Shoshone	2192	5	Invasive Species	Russian Olive remediation
AMA	Powell	Shoshone	109846	300	Invasive Species	Russian Olive remediation
AMA	Powell	Bitter Creek	12815	35	Invasive Species	Russian Olive remediation
AMA	Powell	Bitter Creek	12815	35	Invasive Species	Russian Olive remediation
AMA	Powell	Shoshone	16765	50	Invasive Species	Russian Olive remediation
AMA	Powell	Shoshone	4394	12	Invasive Species	Russian Olive remediation
AMA	Powell	Bitter Creek	10059	30	Invasive Species	Russian Olive remediation
WHIP	Powell	Shoshone	58995	150	Wildlife Initiative	Russian olive, riparian, wildlife

**Seedling Tree Program**

Powell Clarks Fork Conservation District continued a tree seedling program providing low-cost conservation seedlings for residents’ conservation efforts. Twenty-two varieties of trees (1650 seedlings) were purchased by 17 landowners for spring planting.

**Land Use Planning**

***Subdivision Reviews***

This district maintains a very active working relationship with Park County Planning and Zoning. To date this year we have provided to the planning and zoning soils information and district correspondence on recommendation letters on 14 subdivision or land use requests.

**Plan of Work – Report Card**

<b>Administration</b>	
<i>Objective – to meet WDA and WACD administrative guidelines and requirements and to ensure that all Powell Clarks Fork Conservation District programs are carried out in a timely and responsible manner.</i>

**Financial Summary**

**2009 Financial Summary**

Beginning Balance	37268
Revenues	
Wyoming DEQ	35540
WNRTF	14876
WDA	45702
Tree Sales	2576
Interest	89
Sub Division Review	300
Donation	1000
Total Revenue	100083
Expenditures	
Construction	48776
Sales Tax	255
Grant Repayment	6878
Administration	3076
Operations	30855
Indirect Costs	3746
Total Expenses	93586
Cash on Hand at End of Year	43765

**Plan of Work**

**Administration**

*Objective – to meet WDA and WACD administrative guidelines and requirements and to ensure that all Powell Clarks Fork Conservation District programs are carried out in a timely and responsible manner.*

- Hold regular monthly Board of Supervisor meetings, to make sure public is aware of these meeting and to encourage public participation in these meetings.
- Develop and maintain accurate and legal District budget
- Provide the Board of Supervisors accurate and timely financial information so that they can make appropriate decisions.
- Comply with WDA and WACD financial policies in order to receive state funding
- Complete all required state and federal reports
- Provide opportunities for development for staff and board members
- Attend meetings and trainings to increase knowledge of natural resources and to stay informed of local, state, and national conservation issues.
- Complete and distribute and Annual Report and Annual Plan of Work

**Public Awareness**

*Objective – to promote activities and programs increasing community awareness of conservation district activities and programs.*

- Continue regular presentations to Park County Commissioners
- Continue regular news articles through Powell Tribune regarding Bitter Creek and Shoshone River water quality issues
- Maintain web site
- Present appropriate workshops in Cody and Powell area
- Present updated conservation activity presentation to local civic organizations
- Complete Long Range Plan for 2008-2013

### **Outreach**

*Objective – to work towards building strong public knowledge. To provide a friendly and visible resource to our local community for conservation information and assistance.*

- Continue to work with NRCS staff promoting and participating with Ag in the Classroom projects
- Continue to build on small acreage work shop activity
- Work with local high school science teacher to demonstrate and provide hands-on water quality testing for local students
- Continue to work with Park County Weed and Pest
- Continue to support and participate in Ballinger Wilderness Retreat

### **Water Quality**

*Objective – to complete mission tasks as outlined in various existing water quality grants and to continue to apply for replacement funds to keep these projects viable.*

- Shoshone River/ Bitter Creek Monitor –continue monitoring on the Shoshone River and Bitter Creek.
- Continue to seek additional grants to maintain Bitter Creek and Shoshone River monitoring efforts.
- Continue to work to keep public informed of water quality results
- Commence annual drinking water well testing service.

### **Watershed Plan Implementation**

*Objective – to work on tasks as outlined in the Long Range Plan to implement tasks as outlined in the Shoshone River and Bitter Creek watershed plans*

- Shoshone River Watershed Plan – Arrange for one meeting with Shoshone River Watershed Plan steering committee to update them on current efforts to implement the watershed plan
- Bitter Creek Watershed Plan – Arrange for one meeting with the Bitter Creek Watershed Plan steering committee to update them on current efforts to implement the watershed plan
- Shoshone River and Bitter Creek watersheds – Arrange for meeting in November with local producers, district board members, and Wyoming DEQ to update DEQ on current efforts and problems associated with watershed plan implementation

- Complete program to mark City of Powell storm drains with conservation and natural resource signage to reduce the amount of chemical wastes being dumped into those drains

**Partnerships**

*Objective – to continue to develop and enhance existing partnerships*

- Continue efforts with Cody Conservation District and Meeteetse Conservation District
  - Complete MS Access training associated with PCFCD water quality database
  - Share database structure with other interested conservation districts
- Continue cooperative efforts with NRCS and Wyoming Game and Fish
- Continue cooperative efforts with Park County Weed and Pest.
- Continue efforts with Powell Tree Board and Park County Master Gardeners

**Tree program**

*Objective – to continue to promote tree plantings that will protect our watersheds, water resources, serve as erosion control, provide benefit to the environment and meet landowner objectives*

- Hold annual seedling tree sales from October through April

**Anticipated Budget**
